ADEF camps are an opportunity to explore personal skills and gain new life-changing experiences in various fields such as theatre, animation, sound effects, Djing, hacking and programming, making videos, photography, storytelling, costume design among others.

DISCOVER YOUR WORLD & EXPRESS YOURSELF

ADEF camps bring together 80 teenagers aged 12 to 15 from all Arab countries to spend two weeks of fun and learning during which they learn to express themselves through digital and analogue tools in a fun and creative environment.

The camps include group activities every evening and two field trips to discover Egyptian heritage.

Trainings take place in three fully set-up labs (13 stations each) and including equipment such as video cameras, sound recorders. A team of expert trainers from several Arab countries conduct the training through motivation and care.
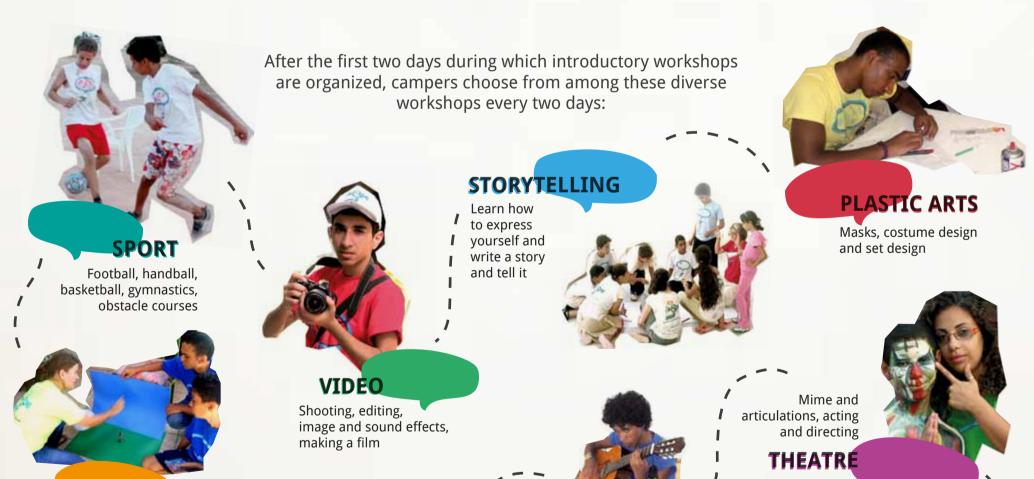

The camp team comprises of 30 members including trainers, supervisors, leaders and administration and health staff. storytelling, costume design among others.

7th
Arab Digital Expression Camps from 16 -31 August 2013 Morgan Village in Ismailiya, Egypt
