SimDemocracy is run by a Parliament system. We also have a President but they have limited powers. SimDemocracy has a legal side in the Judicial Branch.

## Executive Branch

- Prime Minister: The Prime Minister is the head of SimDemocracy's government. They are elected by from the Parliament, by other members of Parliament. The Prime Minister (PM) is in charge of all Ministers and Ministries. They must have an agenda on what they want to do during their term in order to be successful. The PM also has a vote in the Parliament, as they are still a member of the Parliament while serving as Prime Minister. This is the hardest job in SimDemocracy.
- President: The President is largely a figurehead in SimDemocracy, although they are in charge of Foreign Affairs and host community events.
